

QUEENSLAND 2009 EVENTS CALENDAR

<i>Date</i>	<i>Event/Venue</i>	<i>Speaker(s)</i>	<i>Subject</i>	<i>Invitees</i>	<i>Confirmed Sponsor/s</i>
27 February	Luncheon Sebel and Citigate	Bob Hayward Director of IT Advisory KPMG	How are businesses responding to the doom and gloom? What solutions will they be looking for? The current economic climate, some IT products and services are thriving in this environment. Bob will outline what those are, why they are doing so well despite the bleak times. And how you can join them.	General	
24 April	Luncheon Sebel & Citigate	Jim Stabcock Group Executive IT & Operations Bank of Queensland	Jim discusses how the use of innovation in technology drives service differentiation in banking, and how BOQ uses its size to its advantage in competing with the big four.	General	  
29 May	Luncheon Sebel & Citigate	Robert Barton Director for Industry Partnerships Office of Clean Energy Department of Employment, Economic Development and Innovation.	The Federal Government and various state governments have set ambitious policy directives to tackle climate change and drive the development of renewable energy. Achieving a low carbon, renewable energy future presents a number of challenges and opportunities for the ICT industry. Robert will investigate the current context of policy, programs and public sector investment and the potential of ICT in mitigating climate change and supporting renewable energy uptake. 19 June	Luncheon Sebel & Citigate	Paul Pettigrew CIO SEQ Distribution Entity	<p>A new business opportunity for the ICT industry in Queensland.</p> <p>When established, the SEQ Water Distribution Entity will be one of the top 50 companies in Australia with \$10 billion in assets and \$1 billion in revenue. A key task will be to build on, and migrate from, the existing Council water management systems. The intent is to move to a next-generation greenfield platform that will enable a regional approach to water and wastewater service delivery to 1 in 7 Australians. This is a key aspect of the water reform agenda of South East Queensland, and the migration will require a number of new enterprise systems to be implemented and integrated, including geo-spatial information systems, customer relationship management, ERP, Finance and Asset Management systems through to pipeline and network systems such as SCADA, Telemetry, smart meters, etc.</p>	General	 <p>technologyone business software solutions www.technologyonecorp.com</p>
